Customer Service Standard Operating Procedure

1. Purpose

This document provides standard procedures for customer service representatives when handling customer questions, complaints, returns, refunds, shipping issues, and product-related requests.

2. Greeting the Customer

The representative should begin the conversation politely and professionally.

Example:

"Hello! Thank you for contacting customer support. How can I help you today?"

3. Verify Customer Information

Before discussing order-specific information, verify the customer's identity using appropriate account or order information.

The representative may request:

- Order number
- Customer email address
- Delivery information
- Relevant product information

Do not request or expose unnecessary sensitive information.

4. Order Status Questions

When a customer asks about an order:

1. Locate the order using the order number or account information.
2. Check the current order status.
3. Check shipping or tracking information if available.
4. Provide the customer with the latest available information.

5. Return Requests

When handling a return request:

1. Confirm the order.
2. Check the purchase date.
3. Check whether the product is eligible for return.
4. Identify the customer's return reason.
5. Provide the appropriate return instructions.
6. Record the return request in the support system.

6. Refund Requests

For refund-related questions:

1. Verify the order.
2. Check whether the return has been approved.
3. Check the refund status.
4. Provide the expected processing timeframe.
5. Escalate the issue if the refund is delayed beyond the expected period.

7. Damaged Products

If a customer reports a damaged product:

1. Confirm the order number.
2. Ask when the product was delivered.
3. Request photographs when required.
4. Record the damage details.
5. Escalate the case to the appropriate team.
6. Inform the customer about the next steps.

8. Wrong Product

If the customer receives an incorrect product:

1. Verify the order.
2. Compare the ordered product with the delivered product.
3. Request evidence when required.
4. Create a replacement or return request according to company policy.
5. Inform the customer about the resolution.

9. Shipping Delays

For delayed orders:

1. Check the order status.
2. Review the courier tracking information.

3. Check whether the expected delivery date has passed.
4. Provide the latest tracking information.
5. Escalate when the package appears lost or tracking has not updated for an extended period.

10. Escalation

Escalate an issue when:

- The customer reports a serious product defect.
- A refund is significantly delayed.
- A package appears lost.
- The customer reports repeated delivery failures.
- The issue requires approval from another department.
- The customer requests an action that the support representative cannot perform.

11. Communication Guidelines

Representatives should:

- Remain polite and professional.
- Provide accurate information.
- Avoid promising outcomes that cannot be guaranteed.
- Explain the next step clearly.
- Avoid sharing confidential customer information.
- Record important actions and decisions.

12. Closing the Conversation

After resolving the customer's question, confirm whether any additional assistance is required.

Example:

"Is there anything else I can help you with today?"

Thank the customer before closing the conversation.
